SUMMARY

Experienced freelance frontend web developer with over 3 years of hands-on experience in creating visually appealing and user-friendly web and mobile applications. Proficient in utilizing tools such as React, Next.js, Angular, and Android Studio to develop dynamic and scalable web applications. Collaborative and client-focused, with a track record of successfully delivering tailored solutions to clients from diverse industries. Strong problem-solving abilities and dedication to delivering high-quality projects within specified timelines. Experienced in integrating with backend APIs, working with backend developers, and deploying websites and applications.

WORK EXPERIENCE

Frontend Developer, Markon CS

Aug. 2020 – Apr. 2023

(Junior to Senior Level)

- Developed expertise in frontend development, progressing from a junior role to a senior position at MarkonCS.
- Utilized strong leadership skills to instruct and mentor junior team members on our proprietary framework.
- Collaborated closely with backend developers to ensure seamless integration and functionality of ERP systems, CRM systems, and ticketing systems for diverse clients.
- Successfully delivered more than 10 projects, including the development of ERP systems, CRM systems, and ticketing systems for various clients.
- Actively participated in the entire software development lifecycle, from requirements gathering and design to implementation, testing, and deployment.

Android Developer, MarkonCS

Sep. 2021 – Jan. 2023

(Mid-level)

- Contributed as an Android Developer at MarkonCS, actively involved in diverse projects, including those available on the Google Play Store.
- Played a crucial role in developing and enhancing mobile applications, ensuring high-quality user experiences and seamless functionality.
- Collaborated closely with cross-functional teams, including designers and backend developers, to implement robust and efficient solutions.
- Successfully delivered projects within specified timelines and adhered to project requirements and guidelines.
- Utilized industry best practices, coding standards, and technologies to create optimized and maintainable codebases.
- Actively participated in code reviews, bug tracking, and troubleshooting to ensure the stability and performance of the applications.

Freelance Frontend Web Developer

Nov 2020 – Aug. 2023

(Individual or in a team)

- Operated as a freelance frontend web developer, specializing in creating visually appealing and user-friendly websites and POS (Point of Sale) systems for clients across various industries.
- Collaborated closely with clients to understand their unique requirements, design preferences, and brand guidelines to deliver tailored solutions.
- Utilized a wide range of tools and technologies, including React, Next.js, and other frontend frameworks, to develop highly interactive and scalable websites and POS systems.
- Implemented responsive design principles and optimized user interfaces for different devices and screen sizes, ensuring a seamless user experience.
- Utilized version control systems, such as Git, to manage codebase and collaborate effectively with team members.
- Deployed websites and POS systems using various hosting platforms, including Vercel, or custom server configurations, ensuring smooth and reliable performance.
- Conducted thorough testing and debugging to identify and resolve any issues, ensuring the highest level of quality and functionality.
- Successfully completed multiple frontend web development projects, including websites and POS systems for various businesses.
